Talking Playmate for Kids™

Talkido Kit Setup Guide

Check for more information:
talkido.co/support

Welcome to

talkido's world of fun!

Here you will find important information about how to:

- setup
- control
- play and
- troubleshoot

your Talkido Kit.

Please keep this manual in a safe place and follow all the instructions.

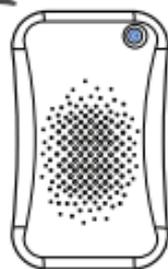

Getting Ready

To start, you will need:

Your phone

With internet and
Bluetooth access

Mio

Charged and
unplugged

Card/Tag Sets

QR Codes

Each product has
one QR code

Tip: You can find QR codes inside the packages of Mio, Cards and Tags.

Setup an account

Make sure that the phone has stable internet connection during setup

Download free TalkidoApp and create an account

Android 10 and newer

iOS 16 and newer

Register your products by scanning the QR codes

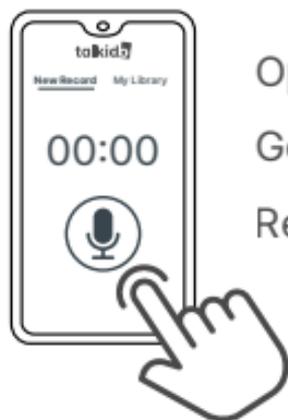

You are all set! Keep going to upload sounds to Mio

Upload sounds to Mio

There are 2 ways to do that:

Using TalkidoApp

Open TalkidoApp

Go to the Sound Studio

Record your voice

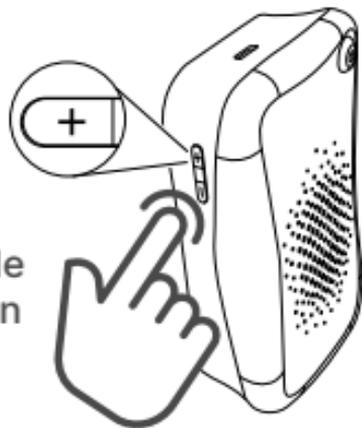

You can upload the recording immediately to Mio or save it to your library by following the instructions in the app

Tip: Ensure that both Bluetooth and Location Services are enabled on your phone to connect it to Mio.

Using the Microphone on Mio

-  Turn on Mio
-  Press volume down button until you hear "beep" sound
-  Record your voice while still pressing the button
-  Release the button to finish recording

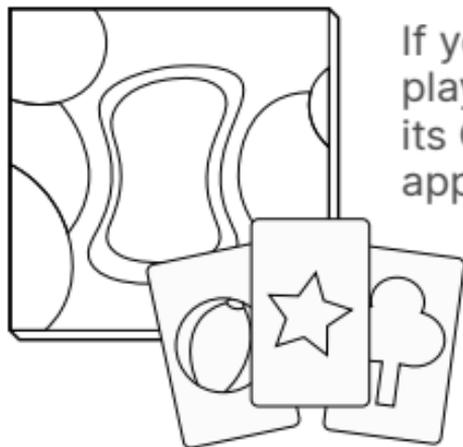

When you finish recording, tap a card or a tag on Mio to match with the recording.

Changing Sounds in a Card/Tag

You can simply record a new sound either with App or Mio and tap the card or tag on Mio. The recording will automatically change.

Use the app when you need higher sound quality or to save the recording in your library.

Upload Ready Playsets to Mio

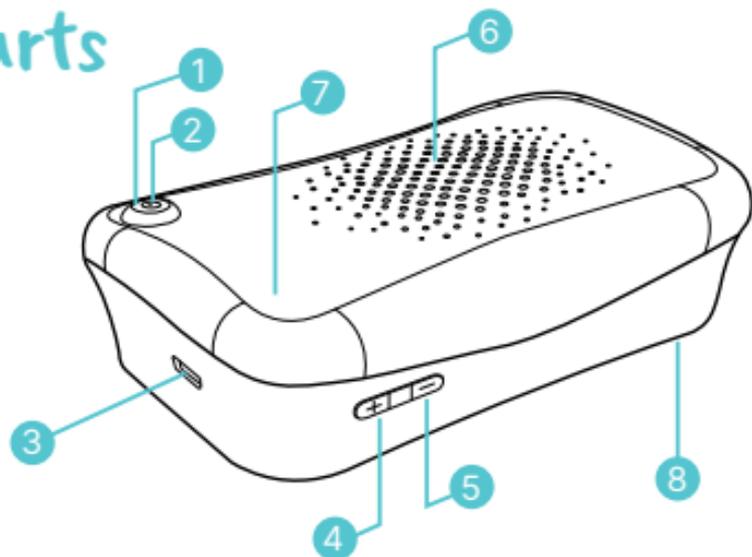

If you have a ready playset, after scanning its QR code, it will appear on your app.

Select the set you want to upload to Mio on the app and follow the instructions as shown on the app.

Controls

Turning On/Off

Press the Power Button and hold for 3 seconds to turn Mio on and off

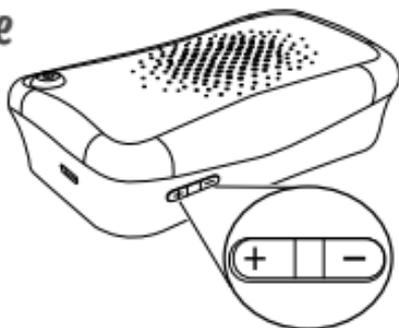

Play the Sounds

Tap the cards or tags on Mio and to play the recordings

Adjusting the Volume

Press volume up and volume down buttons to adjust the volume

As a safety precaution, Mio does not play a sound during charging.

Charging

Connect Mio to a power supply using the charging cable when the battery is low

WARNING! Always use a 5V adapter certified by CE or FCC.

LED Displays

	Steady Blue Sufficient battery
	Blinking Blue Charging and / or connected to Bluetooth
	Steady Red Low battery
	Blinking Red Battery critically low. Please charge
	Flashing Red when turning on Critical system error. Contact customer service.

Charge Mio at least once a month to maximize the battery life.

Troubleshooting Tips

Mio is very reliable, but if for some reason it seems not to be working properly, please try the following in this order:

Restart

First try the classic restart.

1. Turn off Mio
2. Wait for 5 seconds
3. Turn it on
4. Tap a Card/Tag on Mio

Check for Updates

If restarting does not work, check if Mio and TalkidoApp are up-to-date.

1. Open TalkidoApp
2. Connect Mio to the app
3. Go to settings
4. If you see an update notification, download the latest update to Mio.

Check for TalkidoApp updates regularly on PlayStore or AppStore.

Reset

If restarting and updating Mio do not work, try resetting.

1. Open the app
2. Connect Mio to the app
3. Go to settings
4. Press reset in app

WARNING! The sound recordings and settings in Mio will be deleted when reset.
